Single use gloves, nitrile, without powder, purple - Tegera 858

ejendals

Durable accelerator-free nitrile disposable gloves featuring an extended cuff for additional protection. Designed to provide comfort, grip, and protection against chemicals, viruses, oils, and grease.

The Tegera 858 is a premium purple nitrile disposable glove developed for users requiring enhanced protection and comfort in demanding environments. The glove is powder-free, latex-free, and accelerator-free, helping reduce the risk of allergies and skin irritation.

Its extended 280 mm cuff provides increased protection for the wrist and lower forearm, while the durable 0.15 mm nitrile construction delivers excellent resistance to chemicals, oils, and grease. The flexible nitrile formulation ensures high comfort and excellent fingertip sensitivity, making the glove suitable for precision tasks.

The glove is approved for food handling, touchscreen compatible, and provides virus protection according to recognised international standards. Supplied in convenient boxes of 100 gloves.
