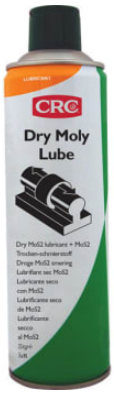
Lubricant - Crc Dry Moly Lube

Art.no.: 0541742

Dry Moly Lube provides a durable, dry MoS film that withstands high pressure and temperature. Ideal for metal-to-metal lubrication where wet films are not suitable. Protects against corrosion, prevents wear, and minimizes friction.

Dry Moly Lube is a high-performance lubricant featuring a dry molybdenum disulfide (MoS) film designed for demanding applications. It resists high pressure and temperature, reduces stick-slip issues, and displaces water and moisture. Offers general corrosion protection, prevents seizing and fretting, and ensures an extremely low coefficient of friction. Perfect for environments where wet lubricants cannot be tolerated.



Volume	500 ml
Brand	CRC
HS code	0
COO	1016
Sales unit:	PCS
Master packaging (pcs)	12
Supplier no.	1031608
