Tungsten carbide burrs, set - Tyrolit PREMIUM, 10 pcs

Art.no.: 1360879

PREMIUM tungsten carbide burr set for cast iron, steel and stainless steel

The PREMIUM set of carbide burrs for straight grinders is manufactured on state-of-the-art CNC grinding machines. The result is efficient precision tools in various designs that meet all requirements for optimal performance. The aggressive cutting profile produces especially long chips and ensures maximum material removal when working in hard-to-reach areas. Thanks to the specially developed cutting geometry, this tool always maintains low heat development to protect both the workpiece and the burr. The set includes a selection of ten different burr profiles, enabling the best tool life and highest durability for almost all applications across a wide range of materials.

Features

- Efficient precision tools manufactured on modern CNC grinding machines
- Aggressive cutting profile produces long chips and ensures maximum stock removal on almost all materials
- Contains the most common burr profiles and sizes in one set: 52KEL (12x30), 52WRC (12x25), 52SPG (12x25), 52SKM (12x22), 52KUD (12x11.7), 52ZYA-S (10x19), 52WRC (8x19), 52RBF (10x19), 52SPG (6x16) and 52KUD (8x7.2)

Applications

- Standard burrs for demanding work on cast iron, steel, and stainless steel
- For universal grinding tasks in hard-to-reach areas with manual, pneumatic, or electric machines, as well as industrial robots
