

# Assembly paste – CRC Copper Paste

Art.no.: 0541682

CRC Copper Paste will prevent mechanical parts from seizing

This quality copper-based lubricant protects well against fretting and makes it easier to (dis)assemble mechanical parts. It also reduces friction and wear and is resistant to very low and hot temperatures.

## Features

- High pressure and high temperature resistant
- Enables easy disassembly of threaded parts, gaskets and flanges, even after long operational periods
- Threaded parts remain in good condition
- Separating film ensures favorable release behavior of the threaded connections
- Resistant to hot and cold water
- Lead-free and nickel-free
- Does not contain chlorinated solvents and uses hydrocarbon

## Applications

An effective anti-seize lubricant for:

- Bolts, nuts, pins, bushings, , brake adjusters, spark plugs & splines
- Screw connections on hydraulic equipment
- Flanges, flange seals & exhaust screw connections
- Sliding sleeves / shaft

Length	260 mm
Width	230.0 mm
Height	175.0 mm
Weight	0.5 kg
Brand	CRC
HS code	34039900
COO	DEU
Sales unit:	PCS
Master packaging (pcs)	12
Supplier no.	10699
