

# Threadlocker – Loctite 275

Art.no.: 0545162

Green, high strength, high viscosity methacrylate-based threadlocking adhesive, suited to large threads. Fluoresces to allow monitoring.

LOCTITE® 275 is a green, high strength, high viscosity, thixotropic methacrylate-based threadlocking adhesive. With fixture times on steel of 15 min, brass 7 min and stainless steel 180 min, it is ideal for applications where migration of the adhesive must be prevented. Can tolerate slight contaminations of industrial oils. Suitable for large threads. Fluoresces to allow monitoring.
