Oil absorbent boom - Lubetech, ø13cm × 3m - 4pcs

Art.no.: 0504025

The oil absorbent boom is designed for fast and effective oil spill containment and recovery. Its lightweight construction makes deployment and retrieval easy, while premium polypropylene absorbent material provides excellent oil absorption performance.

This oil absorbent boom is manufactured using high-quality polypropylene for superior absorbency, durability and long-lasting performance. With a diameter of 13 cm, the boom is lightweight, easy to handle and quick to deploy, making it ideal for spill response and environmental protection operations.

An inter-connectable design allows multiple booms to be securely linked together, creating extended containment barriers for larger spill incidents. Connection clips positioned 60 cm from each end enable fast assembly and improved deployment efficiency.

Suitable for marine, industrial and environmental applications, the boom helps contain and absorb oil and petroleum-based liquids while supporting effective spill management and cleanup efforts.

Length	3.0 mtr
Diameter	130.0 mm
Absorberingsevne	265 L
Brand	Lubetech
HS code	34029090
COO	GBR
Sales unit:	PCK
Master packaging (pcs)	20
Package count (pcs)	4
