

Spray paint – Power Coat RAL Décor

Topcoat suitable for most previously painted surfaces. Suitable for both indoor and outdoor use. Good coverage and adhesion. Fast-drying. Resistant to chemicals.

Description:

- High-gloss, single-component acrylic-based paint
- Weather, ozone, and UV resistant
- Scratch, impact, and shock resistant
- Fast drying
- Good adhesion properties on most previously painted surfaces. Should not be used directly on aluminum, stainless steel, or other smooth surfaces. Power Coat Nitrofest or Adhesion Primer Special is recommended as a primer.

Benefits:

- Good coverage
- Fast drying
- Good adhesion to most substrates
- Impact-resistant and flexible
- Resistant to chemicals
- Can be polished
- Adjustable nozzle
