

Sundström SR218 A2, 4 pcs

Art.no.: 1218369

Gas filter for Sundström SR 100 half-mask and SR 200 full-mask.

The SR 218 Gas Filter, Class 2, is designed for use with Sundström half-masks and full-masks. The filter is type A and provides protection against organic gases and vapors, such as solvents, with a boiling point above +65 °C. The gas filter can be easily combined with the SR 510 P3 R particle filter to also provide protection against aerosols (particles), e.g., during spray painting.

| Material | Polyester, ABS, Aktivert kull |
|------------------------|-------------------------------|
| | |
| Min. temp. | -10°C |
| Max. temp. | +55°C |
