

Sundström SR297 ABEK1, 4 pcs

Art.no.: 1218371

The gas filter for Sundström SR 100 half mask and SR 200 full mask is designed for protection against gases and vapors with optimized adsorption. This filter ensures effective protection against harmful substances in various work environments, offering reliable respiratory protection when used with the SR 100 and SR 200 series masks.

The SR 297 Gas Filter, Class 1, is designed for use with Sundström half masks and full masks. The filter is of type ABEK and provides protection against the following types of gases and vapors:

- **Type A:** Protection against organic gases and vapors, such as solvents, with a boiling point above +65°C.
- **Type B:** Protection against inorganic gases and vapors, such as chlorine, hydrogen sulfide, and hydrogen cyanide.
- **Type E:** Protection against acid gases and vapors, such as sulfur dioxide and hydrogen fluoride.
- **Type K:** Protection against ammonia and certain amines, such as ethylenediamine.

The gas filter can easily be combined with the SR 510 P3 R particle filter to also provide protection against aerosols (particles), such as when spray painting.

Material	Polyester, ABS, Impregnert aktivt kull
Min. temp.	-10°C
Max. temp.	+55°C
Model	SR 297
Brand	Sundström
HS code	63079090
COO	SWE
Sales unit:	PCK
Master packaging (pcs)	0
Package count (pcs)	4
