Washer, A4 stainless

Durable and corrosion-resistant A4 stainless steel washer – perfect for outdoor use and demanding environments. Complies with DIN125 and ISO7089 standards.

The A4 flat washer is made from acid-resistant stainless steel, designed for applications requiring high corrosion resistance, such as outdoor installations or marine environments. With a hardness of 140–250 HV and compliance with DIN125 and ISO7089 standards, it ensures reliability and compatibility in professional assemblies.

Material	A4
