# Clevis elephant foot

Art.no.: 0380155

Heavy-duty elephant foot with clevis pin designed for safe and efficient cargo securing. Supplied complete with clevis pin and split pin, suitable for demanding industrial and maritime applications.

The elephant foot with clevis pin is a robust cargo securing component manufactured from high-strength 40Cr steel. It is designed for reliable performance under heavy loads and is supplied complete with one clevis pin according to ISO 2341 and one split pin according to ISO 1234.

Each unit is clearly marked with the ILS name and product code on one side, and a batch number including supplier ID and production date on the other side, ensuring full traceability. The product is finished in RAL 2000 paint for visibility and corrosion protection.

Suitable for professional lashing systems used in transport, offshore and industrial environments.
