

Fall arrester – Sala Ultra-Lok RSQ

Art.no.: 0611250

The 3M™ DBI-SALA® Ultra-Lok™ Self-Retracting Lifeline (SRL) is durable, lightweight, and engineered for safety, efficiency, and reliability. Sold as a standard with stainless steel lifeline material and thermoplastic housing, but also available with synthetic rope or galvanized steel cable lifeline material and an aluminum housing on request. The 3M™ DBI-SALA® Ultra-Lok™ Self-Retracting Lifeline (SRL) RSQ™ design is a dual-mode SRL for fall arrest and integrated rescue systems. 3M™ DBI-SALA® Ultra-Lok™ Self-Retracting Lifelines are available in SRL, Retrieval SRL, and RSQ™ configurations.

The 3M™ DBI-SALA® Ultra-Lok™ Self-Retracting Lifeline (SRL) extends and retracts with the users as they perform their work task. Should a fall occur, the speed sensing brake system will activate helping stop the fall and reducing the forces imposed on the user to safe levels. 3M™ DBI-SALA® Ultra-Lok™ Self-Retracting Lifelines feature quality and durable systems.

Highlights

- Durable aluminum or thermoplastic housing
- Available in multiple configurations, lifeline lengths, and material types
- Fall arrest energy dissipation system
- Quick activating speed-sensing locking system
- Swiveling anchorage connector loop
- Swiveling self-locking snap hook with impact indicator
- RFID Information tag embedded in polyurethane bumper
- Emergency retrieval system available on some models

Weight	8.5 kg
Produced in accordance with	NS-EN 360, NS-EN 360
Lifeline length	15.0 mtr
Lifeline	Stainless steel wire rope
Model	Ultra-Lok RSQ
Brand	DBI-SALA®
HS code	84798908
COO	USA
Sales unit:	PCS
Master packaging (pcs)	0
