

Sling clevis hook – Gunnebo GrabiQ EGKN

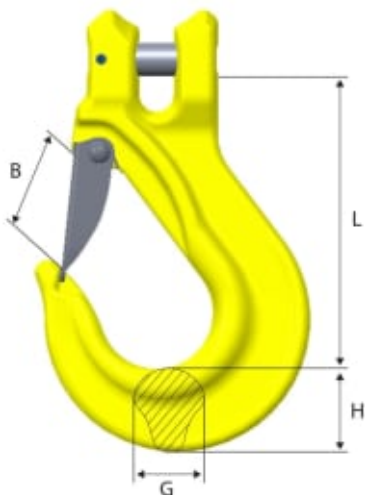

The Gunnebo EGKN is a durable sling hook with clevis connector, made from yellow Grade 10 alloy steel. Equipped with a safety latch and suitable for use with both Grade 100 and Grade 80 chain systems.

The Gunnebo EGKN Sling Hook with Clevis is designed for tough lifting operations. Forged from hardened and tempered alloy steel, it provides high strength and long service life. A secure safety latch ensures safe handling and prevents accidental release.

The hook is painted bright yellow for increased visibility and is compatible with both Grade 100 and Grade 80 chains. It features a 4:1 design factor and meets EN 1677:2008 (+25% WLL), ASTM A952/A952M, and AS 3776:2015 standards.

Color	Yellow
