Inflatable life jacket - Kru XF

Art.no.: 0816002

The Kru XF is a versatile inflatable lifejacket designed for both professional and leisure use. With automatic water activation, Wave Barrier technology and high actual buoyancy, it delivers reliable safety in coastal waters and demanding working environments.

The Kru XFVest is a single-chamber inflatable lifejacket that automatically inflates upon water contact. Rated at 150N with an actual buoyancy of 170N, it provides dependable flotation and enhanced safety for users weighing 40 kg and above.

Equipped with advanced Wave Barrier technology, the lifejacket turns the wearer onto their back within five seconds, helping to keep airways clear and significantly reducing the risk of secondary drowning. A tailored collar and side adjustments ensure a comfortable, customised fit.

The lifejacket features an integrated crotch strap, light attachment point, retro-reflective tape and high-visibility fabric for improved safety. It is supplied with a 33 g gas cylinder and an oral inflation tube.

Suitable for inshore and coastal waters, as well as work on quays, barges and similar environments, the Kru XFVest is manufactured in accordance with ISO 12402-3.

Produced in accordance with	ISO 12402-3
