

Hydrostatutløser - Hammar H20

Art.no.: 0827510

Hydrostatic release unit suitable for all types of liferafts from 6 to 150 persons. Corrosionfree design made of glass fiber reinforced nylon.

The Hammar H20 is a hydrostatic release unit designed for use with all types of liferafts ranging from 6 to 150 persons. It is manufactured from glass fiber reinforced nylon, making it resistant to rust and corrosion.

The unit is designed to be highly costefficient and can in many cases provide significant savings compared to competing products. With a recyclability rate of 97%, the Hammar H20 represents a more sustainable choice in marine safety equipment.

The release mechanism is automatically activated at a depth between 1.5 and 4 meters.
