Stiffy Hand Tool, D-handle

Stiffy Hand Tool is designed to reduce hazardous incidents that can occur during lifting operations. It ensures a safe distance between personnel and the load and helps with positioning the load. It enables the control of suspended loads and assists in pulling out wire slings or attaching spreaders.

- Ensures a safe distance between personnel and the load
- Helps with positioning the load
- Can control suspended loads
- Pull out wire slings or attach spreaders

Brand	Stiffy
