

# Folding ruler, wood – Hultafors 61

Measuring Stick 61 is a classic and precise folding ruler made from birchwood with Swedish steel joints. It offers durability and flexibility, with clear metric and imperial markings – ideal for professionals and DIY users.

This folding ruler is crafted from birchwood and features heat-treated Swedish steel joints, allowing for a slim and flexible design. It is marked with black numbers on both sides – metric scale underneath and imperial inches on top. A water-based protective lacquer increases resistance to dirt and moisture. The joints are lacquered and oiled at three points for superior flexibility. Each segment is inspected twice during production using high-speed cameras to ensure accuracy.

Width	17 mm
Material	Wood
