

## Grinding wheel, rough - Tyrolit 2in1 27E, PREMIUM

High performance grinding wheel for demanding applications on various steel and stainless steel grades. Suitable for all common angle grinders.

The PREMIUM 2inl grinding wheel for the angle grinder is the perfect tool for fast and comfortable grinding jobs. What makes this rough grinding wheel so unique is the beveled and defined Comfort Start edge of the tool. This gives the operator a comfortable start when grinding and increases the comfort of work many times over. Moreover, this product is manufactured with a coarser grain and a new layer composition, which makes them extremely aggressive and durable. Grinding jobs without much effort are guaranteed with the PREMIUM 2inl grinding wheel.

## **Product advantages**

- Bond with coarse grain and a new layer composition enables quick and convenient use with minimal exertion
- Comfort Start ensures a comfortable start when grinding and increases the level of working comfort
- Maximum abrasiveness and lifetime

Type 27E Brand Tyrolit
