

Steel wire rope clamp – stainless steel AISI 316, DIN 741

Durable wire rope clip according to DIN 741 standard, ideal for light to medium-duty tasks. Perfect for securing wire ropes in fencing, handrails, and general construction. Note: Not suitable for lifting.

DIN 741 wire rope clip made of stainless steel. Features a U-shaped bolt and cast saddle securing the wire ends.

Follow the rule “Never saddle a dead horse.”

Recommended for non-critical applications such as lashing, fencing, handrails, and general wire rope terminations. Not intended for lifting or safety-critical uses. Multiple clips and proper torque tightening are required for safe installation.

Material	Stainless steel
