Lashing belt with hooks

Durable polyester lashing belt with hooks and ratchet mechanism, designed for safe and efficient load securing during transport. Manufactured according to EN 12195-2 and Chrome 6 free for safe and environmentally responsible use. Available in multiple strengths, widths, and lengths to suit different applications.

Polyester lashing belt with hooks and ratchet, bluewhite design with zincplated components. Designed for lashing only, not for lifting, and compliant with EN 12195-2.

The belts feature a 2:1 safety factor and are available in multiple variants with different breaking strengths, lashing capacities, webbing widths, and lengths. Chrome 6 free surface treatment ensures safer handling and reduced environmental impact.

Material	Polyester
