Light sticks - Cyalume ChemLight 15"

The ChemLight is so bright it can be seen from up to a mile away – so you'll have no problem illuminating small rooms, passages, trails and camps with just a single light stick. ChemLight is waterproof, non-toxic and non-flammable. The light baton has a heavy-duty end ring for attaching and tying together. To activate ChemLight, simply bend, snap and shake to immediately flood your surrounding area with functional light.
