Methylated spirit

Versatile denatured alcohol suitable as fuel, cleaner, and degreaser. Ideal for maintenance, painting preparation, and general household applications.

Denatured alcohol is a multipurpose product used as fuel for spirit burners and as an effective solvent for removing paint, varnish, and adhesives. It is also ideal for stain removal and degreasing surfaces prior to painting or coating, ensuring better adhesion and finish.

Additionally, it can be used as frost protection in water traps and pumps during cold conditions.

Applications:

- Fuel for spirit stoves and burners
- Cleaning tools and surfaces
- Degreasing before painting or coating
- Removal of stains and residues
- Frost protection in plumbing systems

Safety: Flammable product – handle with care. Ensure proper ventilation and always follow label and safety instruction
