

# Gangway net with securing ropes

Durable gangway net made from robust polypropylene, designed for safe access and reliable installation. Supplied with strong securing ropes and reinforced edge rope for demanding environments.

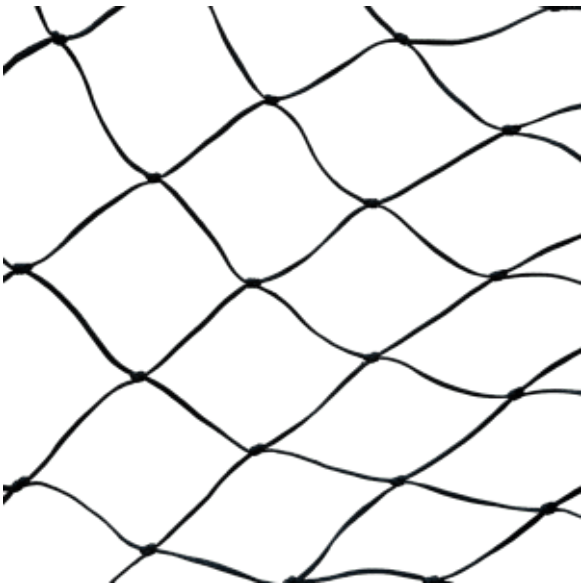

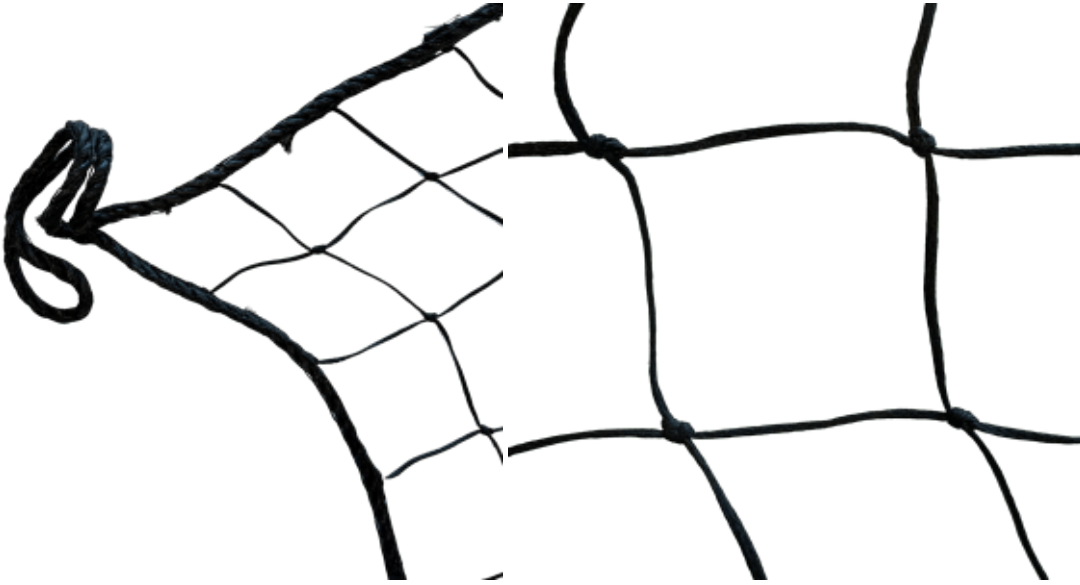

This gangway net is manufactured from black polypropylene, providing excellent durability and resistance to moisture and weather conditions. The net features a 100 mm mesh size, with 3 mm mesh rope and a 12 mm reinforced rim rope for added strength. Integrated lashing ropes ensure easy and secure installation. Suitable for use in offshore, marine, and industrial environments where safe access or protection is required.

## Specifications:

- Mesh size: 100 mm
- Mesh rope: 3 mm
- Rim rope: 12 mm
- Includes securing ropes
