

Comfort Positioning Safety Harness - DBI-SALA® ExoFit™ XE100

Designed for demanding environments, the 3M™ DBI-SALA® ExoFit™ XE100 delivers superior comfort, durability, and functionality for workers in construction, climbing, and positioning applications. Featuring a padded body belt and strategically placed padding at the hips, back, and legs, this harness ensures all-day comfort without compromising safety.

The quick-connect buckles and Revolver torso adjusters make fitting fast and easy, while four zinc-plated steel D-rings at the back, front, and hips offer versatile connection points for enhanced mobility and safety. Built with rugged polyester webbing and corrosion-resistant hardware, the XE100 is rated to support up to 140 kg and meets EN358 and CE EN361 standards.

From general industry to transportation and manufacturing, the XE100 is your reliable partner in challenging work conditions.

Key Features:

- Integrated body belt with hip pad for added support
- Quick-connect chest and leg buckles for fast, secure fit
- Aluminium alloy/zinc-plated steel hardware
- Subpelvic strap and Connected Safety ID for added safety
- Certified to EN358 and CE EN361 standards

Produced in accordance with EN 358, EN 358
