

Kroppssese med støttebelte - DBI-SALA®

ExoFit™ XE200

The 3M™ DBI-SALA® ExoFit™ XE200 Comfort Positioning Harness is designed for professionals who need maximum support, comfort, and precision when working at height. Ideal for positioning, climbing, and construction, this harness combines smart safety features with rugged durability.

Featuring aluminum D-rings at the front, back, and hips, a durable polyester body belt, and hip, leg, and back padding, the XE200 ensures both safety and comfort during long hours on the job. The revolving torso adjusters (patented) allow quick and easy fit adjustment, while auto-locking quick-connect buckles offer fast, secure donning.

With CE EN361 and EN358 certifications, and a weight capacity of 140 kg, the XE200 delivers high performance for demanding industrial applications.

Key Features:

- Integrated body belt for work positioning
- Aluminum D-rings at back, front, and hips
- Padded hip, leg, and back sections for enhanced comfort
- Revolving torso adjusters (patented) for quick and easy fit
- Auto-locking quick-connect buckles for fast and secure attachment
- Made from durable polyester webbing
- CE EN361 and EN358 certified
- Connected Safety ID for digital inspection management
- Weight capacity: 140 kg
