Offshorebag, PVC, 24"

A spacious and durable PVC offshore bag designed for demanding work environments. Featuring a 60-litre capacity, reinforced construction, and multiple storage pockets, it provides practical storage and transportation for workwear and equipment.

The PVC Offshore Bag 24" is a heavy-duty work bag designed for offshore, industrial, and marine applications. Manufactured from reinforced PVC fabric with a water-resistant surface, it offers reliable protection against moisture and everyday wear.

The large main compartment provides ample storage space for work clothing, PPE, tools, and personal belongings. Large zippered pockets on the front and back help keep equipment organized, while the transparent front pocket allows for quick identification and labeling.

Reinforced carrying handles with a hook-and-loop wrap ensure comfortable handling, and the adjustable shoulder strap offers flexible carrying options.

Length	60.0 cm
Width	32.0 cm
Height	32.0 cm
Volume	60 L
