

Maintenance Absorbent, Granules, 20L

Art.no.: 0508113

Highly effective absorbent granules made from 100% natural clay. Designed to quickly absorb oil, water and most liquid spillages while providing safe and reliable spill control indoors and outdoors.

These hard, 100% natural clay granules provide an efficient solution for absorbing oil, water and most liquid spillages. Easy to spread by hand or with suitable tools, they are ideal for workshops, warehouses, industrial facilities and general maintenance environments.

With an absorbent capacity of up to 10 litres, the granules offer reliable coverage for small to medium spills. The material is non-toxic, chemically inert and flame-resistant, helping to ensure safe handling and operation. Once used, the granules do not decompose, allowing spills to remain contained until proper disposal according to local regulations and the nature of the absorbed liquid.

Standards

- BS 7959-1:2004
- ISO 14001
- ISO 9001

Absorberingsevne	10 L
HS code	56012110
COO	GBR
Sales unit:	PCS
Master packaging (pcs)	0
