

Corrosion protection spray – DINITROL 4941 CAR

Art.no.: 0536055

DINITROL 4941 CAR is a professional-grade rust protection spray featuring a hard, elastic black wax/bitumen film. Designed for long-term protection of vehicles, machinery, and steel structures – even under demanding storage and transport conditions.

DINITROL 4941 CAR Spray 500ml provides a thixotropic rust protection with a black waxy film that adheres strongly, even in harsh environments. The film builds up to approx. 500 m and offers excellent abrasion resistance, especially for vehicle underbodies and machinery.

Ideal for long-term protection of iron and steel components, spare parts, and equipment exposed to tough conditions. The elastic film shields against corrosion and mechanical wear.

Safety Information:

Warning: Extremely flammable aerosol (H222-H229). Causes serious eye irritation (H319), may cause drowsiness or dizziness (H336), and is harmful to aquatic life with long-lasting effects (H412).
