

# Silicone - Dowsil 3145 RTV

Art.no.: 0543182

Dowsil 3145 is a one-component silicone adhesive designed for electronics manufacturing.

It cures at room temperature with a neutral alkoxy curing system. The bead does not slump after application. Offers excellent dielectric properties. Provides good adhesion to glass, ceramics, metals, silicone rubber, and many types of plastics. High tear strength. Stable and flexible from -50°C to +200°C (higher for the gray version). Provides good protection against impact and temperature cycling. Meets Mil-Spec A46146 Group II/III, Type I.

Color	Clear
Volume	90 ml
Min. temp.	-50°C
Max. temp.	+200°C
Model	3145
Brand	DOWSIL™
HS code	39100000
COO	USA
Sales unit:	PCS
Master packaging (pcs)	10
