

Safety barrier – Tensabarrier® 891 Mini

Art.no.: 1351203

Mini retractable wall mounted barrier

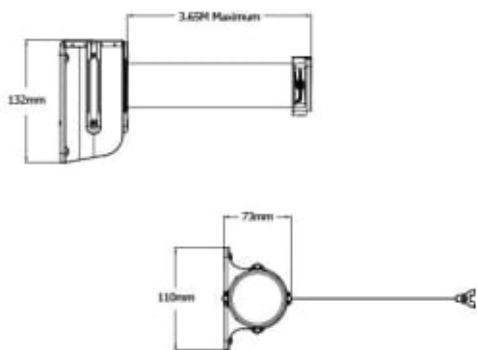

Perfect for restricting access to hazards and prohibited areas using the Tensabarrier® 891 Mini Wall Unit. The ideal solution for smaller locations, this economic retractable barrier unit holds the same safety features as other Tensabarrier® products. These safety features include the originally patented braking system which slows webbing retraction, and the internal steel frame to protect the components.

Tensabarrier® webbing is 2x thicker than most competitor products which ensures it remains a long-lasting fixture in your business.

Fix to your desired surface using screw fixings. Once installed, it becomes a permanent access restriction solution for your workplace.
