

Sack with ROV handles

Art.no.: 1011290

Heavy-duty ROV sack in woven polypropylene, marked with 25 kg SWL. Features two handles and a closure tie for safe handling of sand, grout, or gravel in subsea operations.

Designed for demanding underwater tasks, this sack combines strength and functionality. The durable polypropylene fabric ensures reliability, while the SWL 25 kg marking provides clear load guidance. Two sturdy handles allow easy ROV manipulation, and the closure tie secures the contents. Ideal for transporting sand, grout, or gravel in subsea projects.

Material	Polypropylene
SWL	25 kg
