

Lubricating Oil – CRC Power Lube

Art.no.: 0541617

CRC Power Lube is a light, highperformance lubricating oil enhanced with PTFE for superior lubrication during frequent startup situations. It reduces friction, protects against corrosion, and ensures longlasting performance for a wide range of mechanical components.

CRC Power Lube is formulated as a universal lubricating oil containing PTFE, providing excellent sliding and antiwear properties. It is particularly wellsuited for applications where equipment starts frequently or operates under varying loads. The advanced formula reduces wear, loosens seized parts, and leaves a protective film that guards against friction and corrosion over time. Ideal for industrial maintenance, machinery, tools, moving mechanisms, and other technical equipment requiring precise and reliable lubrication.

Volume	500 ml
Brand	CRC
HS code	34031910
COO	BEL
Sales unit:	PCS
Master packaging (pcs)	12
