

# Rust releaser – CRC Pen Oil

Art.no.: 0541667

CRC Pen Oil is a highperformance penetrating oil that quickly frees seized and rusted mechanisms. It penetrates corrosion and dirt rapidly, releasing bolts, nuts and other metal components. Specially designed for use in the food industry and NSF H1 registered.

CRC Pen Oil is engineered to break through rust, corrosion and debris while providing light lubrication for smoother disassembly and maintenance. Its fastacting formula reaches deep into threads, joints and tight metal connections to loosen stuck components. With NSF H1 certification, it is suitable for use on machinery where incidental food contact may occur. Ideal for rusted bolts, nuts, screws, valves and similar metal parts exposed to corrosion.
