

Anti-corrosion - CRC Urethane Isolation

Art.no.: 0541671

CRC Urethane Isolation is a clear or red onecomponent urethane coating designed to protect electronic components from moisture and contaminants. It dries quickly and forms a flexible, durable film with excellent resistance to abrasion and environmental exposure.

CRC Urethane Isolation provides longlasting protection for printed circuit boards and other electronic assemblies. The urethane coating seals out water, moisture and contaminants, creating a strong protective barrier that enhances the reliability and lifespan of sensitive electronics. After curing, the coating forms a flexible yet robust film that resists abrasion, chemical exposure and mechanical stress. Suitable for manufacturing, maintenance and repair of electronic equipment.

Color	Clear
Volume	250.0 ml
Brand	CRC
HS code	32089091
COO	BEL
Sales unit:	PCS
Master packaging (pcs)	12
