

Anti-corrosion – CRC Easy Weld

Art.no.: 0541684

CRC Easy Weld is an economical and efficient protection spray that prevents welding spatter from adhering to metal surfaces. Its heatresistant, thin film reduces the need for postweld cleanup such as chiseling, grinding, or wire brushing. A practical and reliable choice for workshops and welding operations seeking cleaner, faster, and more efficient workflows—completely siliconefree.

CRC Easy Weld provides a quick and simple solution to stop welding spatter from bonding to metal. The nonsilicone, heatresistant barrier film ensures that spatter particles remain loose and easy to remove, significantly reducing manual cleanup after welding.

Designed for frequent use, the economical formula is ideal for workshops, fabrication environments, and industrial welding processes where consistent performance and reduced labor time are essential.

Volume	500.0 ml
Brand	CRC
HS code	38109090
COO	BEL
Sales unit:	PCS
Master packaging (pcs)	12
