Eye Wash Station - Cederroth 2 × 500 ml

Art.no.: 1221234

Eye wash station from Cederroth including two 500 ml eye wash bottles. The cabinet protects against dust and water and features a transparent lid for high visibility. Bottles open automatically when removed, allowing immediate flushing in emergencies.

The Cederroth Eye Wash Station 2 × 500 ml is designed for fast and effective eye irrigation in emergency situations. The compact cabinet fits easily into confined spaces and can be mounted on walls, vehicles or work benches. A transparent lid protects the bottles while ensuring high visibility.

The eye wash bottles open automatically when twisted out of the holders, enabling instant use without additional handling. Cederroth buffered eye wash is intended to rinse splashes of corrosive alkalis and acids, as well as dust and debris. The buffering effect is generally stronger on alkalis than on acids.

The green cabinet is made from more than 64% recycled plastic, making it a more sustainable choice for modern workplaces.
