Lithium Battery - CR2032 – 3V Coin Cell

Art.no.: 0828086

CR2032 lithium coin cell batteries provide stable, long-lasting power for small electronic devices across a wide range of temperatures.

The CR2032 is a high-performance lithium coin cell battery designed for reliable use in a wide range of electronic devices. It delivers consistent and long-lasting power and performs well in both low and high temperature conditions.

Commonly used in car keys, alarms, watches, cameras, thermometers, and communication devices, the CR2032 is one of the most widely used coin cell batteries. It is also ideal as a backup battery in computers and other electronic equipment.

Its compact size and dependable performance make it suitable for both professional and everyday applications

Type	CR2032
HS code	85065000
COO	CHN
Sales unit:	PCS
Master packaging (pcs)	10
