Grease, aluminium-based - Norus Lubiron AL

Art.no.: 0542190

Versatile aluminium-based grease with excellent lubrication and corrosion protection for industrial and marine environments.

Norus Lubiron ALU is a specially formulated aluminium grease designed for demanding applications requiring reliable lubrication and corrosion protection. It provides excellent adhesion and long-lasting protection even under harsh conditions.

The grease is resistant to pressure, heat, and saltwater exposure, making it ideal for use in industrial, offshore, and marine environments. It effectively protects moving parts and prevents seizing and corrosion in components exposed to moisture and salt.

Suitable as a multipurpose grease, it can be used on a wide range of components such as bolts, nuts, wires, gears, conveyors, and seals.

Features:

- Lubricating and anti-corrosion properties
- Excellent adhesion
- Resistant to pressure, heat, and saltwater
- Prevents seizing and corrosion
- Long-lasting protection
- Suitable for harsh environments

Applications:

- Industrial machinery and equipment
- Offshore and marine installations
- Components exposed to water and salt

Technical data:

- Colour: Silver-like
- Temperature range: -25 °C to +65 °C
- Flash point: approx. 230 °C
- Shelf life: Unlimited under proper storage

Volume	5.0 L
HS code	34039909
COO	-
Sales unit:	PCS
Master packaging (pcs)	0
