

Coverall, Winter, Antiflame, Offshore

Insulated winter coverall designed for offshore, industrial and demanding work environments. Featuring flame-resistant and antistatic properties, this coverall provides reliable protection against cold weather, heat, flames and arc exposure while ensuring comfort and mobility throughout the workday.

This insulated winter coverall is designed for harsh outdoor and offshore environments where warmth, safety and durability are essential. The garment features a padded lining, stand-up collar, and a concealed two-way front zipper protected by a double storm flap with snap closures.

Pleats in the back provide enhanced freedom of movement, while the elasticated waist ensures a comfortable fit. Ribbed cuffs with thumb openings and leg zippers improve comfort and ease of use.

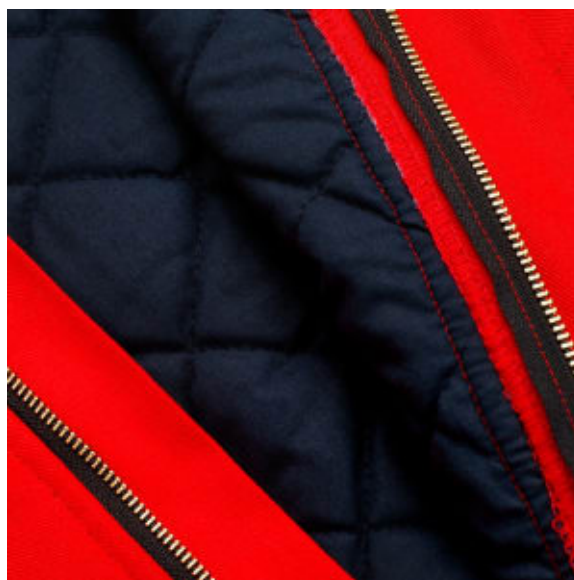

The coverall includes multiple storage options, such as zippered chest pockets, front pockets, back pockets with flaps, a double hip pocket, rule pocket and kneepad pockets.

Reflective tapes on the shoulders, sleeves and legs enhance visibility in low-light working conditions.
