

# Cable Protector, Heavy Duty, 3 Channels

Art.no.: 1165033

Protect cables safely and efficiently with this Heavy Duty cable protector featuring three spacious cable channels. Built from durable rubber and polyethylene, it withstands vehicle loads up to 26 tons while providing excellent stability without permanent fixing. Modular sections can be connected to create the required length for any installation.

This Heavy Duty cable protector is designed for reliable cable management and protection in demanding environments. Featuring three separate cable channels measuring 50 x 60 mm, it provides ample space for power, data, and communication cables.

Constructed from a durable combination of rubber and polyethylene (PE), the cable ramp offers excellent resistance to wear and heavy traffic. The highly visible yellow and black design enhances safety by making the cable protector easy to identify in workplaces, warehouses, construction sites, event venues, and industrial areas.

Its substantial weight of 14.9 kg provides outstanding stability without the need for permanent mounting. Multiple cable protectors can be connected together to cover longer cable runs as required.
