Extension Cable, CEE, IP44, 400V/16A - brennenstuhl® Professional

Heavy-duty CEE extension cable designed for construction sites, industrial environments, and demanding outdoor applications. Featuring a durable H07RN-F rubber-neoprene cable, 5-pin CEE connectors, and IP44 protection against splash water and foreign objects.

This professional CEE extension cable is built for reliable power distribution in demanding environments. Equipped with a durable H07RN-F 5G2.5 rubber-neoprene cable, it offers excellent resistance to oil, UV exposure, and everyday wear.

The cable features a 5-pin 400V/16A CEE plug and coupling with a protective sealing flap, helping to safeguard the connection against dirt and moisture. With an IP44 protection rating, it is protected against foreign objects and splashing water from all directions.

Ideal for construction sites, industrial facilities, workshops, events, and other locations requiring dependable three-phase power distribution.

Model	Professional
Brand	brennenstuhl®
