Work Light, LED, IP65 - brennenstuhl®Multi Battery 4000 MA/6050 MH

Professional LED work lights designed for demanding construction, workshop and outdoor applications. The Brennenstuhl Multi Battery range combines powerful illumination, robust construction and cross-platform battery compatibility for maximum flexibility on the job site.

The Brennenstuhl Professional Multi Battery LED Work Light range is engineered for professionals who require reliable, high-performance lighting and the freedom to work with their preferred battery platform. Thanks to the innovative Brennenstuhl Multi Battery 18V System, these work lights are compatible with batteries from many of the world's leading power tool manufacturers.

The range supports 18V batteries from Bosch Professional, Dewalt, Einhell, Fein, Festool, Flex, Hikoki, Makita, Metabo CAS and Milwaukee. Selected models are also part of the AMPShare battery ecosystem powered by Bosch Professional.

Featuring advanced COB LED technology, the work lights deliver bright, uniform illumination for professional environments. Multiple brightness levels allow users to optimise light output and battery runtime according to the task at hand. Integrated battery status indicators and intelligent battery protection systems help prevent deep discharge, overheating and battery faults.

Built for harsh working conditions, the lights feature durable metal housings, IP65 protection against dust and water jets, and IK08 impact resistance. Selected models offer additional features such as hybrid battery and mains operation, detachable power cables and automatic backup lighting during power outages.

Key Features

- Compatible with 18V batteries from up to 10 major power tool brands
- Brennenstuhl Multi Battery 18V System
- AMPShare compatible models
- Powerful COB LED technology
- Multiple brightness levels
- Battery status indicator
- Deep discharge and overheating protection
- Durable metal housing
- IP65 dust and water protection
- IK08 impact resistance
- Ergonomic carrying handle
- Tripod mounting capability
- Suitable for construction sites, workshops, industrial and outdoor use

Brand	brennenstuhl®
